

Our buses

Take a tour of our busses below and find out what features they have!

Here's a full walkthrough of the bus to give you a quick look at the vehicle you'll be riding or hiring! For more details, check out the three sections below, where we cover everything from the interior to safety features and accessibility

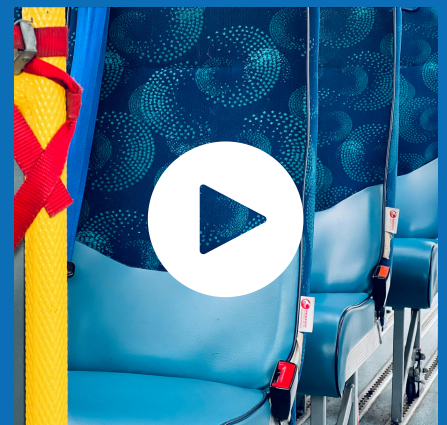

Full bus tour

Welcome aboard! Join us for a quick virtual tour of our bus, where you'll get a feel for the comfortable and vibrant interior found in all our vehicles. In this short video, we'll walk you through what it's like to step on board. We'll touch on the accessibility features here, but for a closer look, check out the detailed videos below.

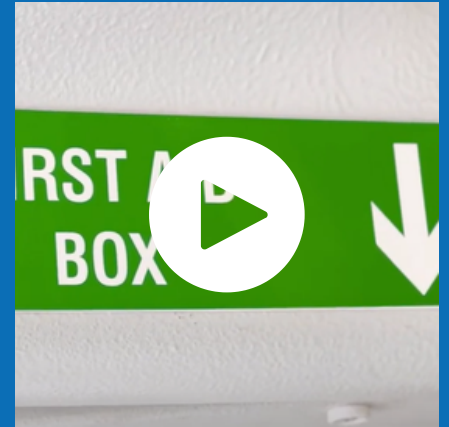

Interior

Step inside and take a look! Our bus is designed for both comfort and convenience. With 14 seats arranged in two rows, there's plenty of room to stretch out and enjoy the ride. Each seat combines leather and fabric for a cozy, stylish feel, and the middle aisle allows easy access throughout. Plus, the seats can be adjusted with simple latches if needed.

Safety equipment

As you make your way through the bus, you'll see an emergency exit at the back, along with a fire extinguisher for added safety. We've posted clear instructions for the accessibility lift to keep you informed on how to use it. There's also an emergency exit on the roof, providing multiple ways to exit if needed. For extra peace of mind, we have a first aid kit and an emergency hammer on board. Your safety is our top priority, and we've taken every measure to make sure you're well-prepared for a safe journey with us.

Accessibility

Our bus is equipped with an easy-to-use accessibility lift at the back, along with specially designed seat belts on both sides to secure wheelchairs and walking aids. We're committed to making sure every passenger feels safe and comfortable. Rest assured, we've taken all the steps to meet your accessibility needs so you can travel with ease and peace of mind.

If you are interested in hiring one of our buses, please use the “application form” button under the bus hire section.
